The reply to Restriction requirement filed 10-03-02 (Paper No. 12) is not fully responsive to the prior Office action (restriction) mailed 7-2-02 (Paper No. 10), because of the following omission(s) or matter(s): Applicant did not elect a species encompassed by the elected invention.

Specifically, applicant elected the species of a fusion protein comprising the pan DR binding sequence of KFVAAWTLKAA. Said sequence does not conform to the generic sequence recited in base claim 18 because the specification of R1 of the generic sequence does not match the N terminal K residue of the elected peptide. K does not suffice for R1 where R1 is an amino acid followed by a alanine or lysine.

Since the above-mentioned reply appears to be bona fide, applicant is given a TIME PERIOD of ONE EXTENDABLE MONTH, from the mailing date of this notice, whichever is longer, within which to supply the omission or correction in order to avoid abandonment. EXTENSIONS OF THIS TIME LIMIT MAY BE GRANTED UNDER 37 CFR 1.136(a).
